

“JADHAV FARMS”

is a project created on Jira to track the progress.

Objectives - The collaborative efforts of Esther's Agricultural firm and Easy Tech Solutions aim to create a project management software that revolutionizes how client meetings are managed and projects are executed, ultimately driving efficiency, growth, and excellence in Esther's business operations.

1. Streamlined client engagement.
2. Efficient project tracking.
3. Enhanced collaboration.
4. Improved Decision making.
5. Client Satisfaction.
6. User Friendly Interface.
7. Knowledge transfer and training.

TimeLine – List of epics Created

Product backlog –

The screenshot displays a web browser window with the Jira Software interface. The address bar shows the URL: `atuljadhav.atlassian.net/jira/software/projects/SCRUM/boards/1/backlog`. The page title is "Backlog" under the project "JADHAV FARMS".

The backlog is organized into a section titled "SCRUM Sprint 1" with a sub-header "Add dates (9 issues)". To the right of this section, there are three status indicators (0, 0, 0) and a "Start sprint" button. Below the sprint header, a list of 9 issues is displayed, each with a green icon, a key, and a description. Each issue also has a "TO DO" status and an assigned user icon.

Issue Key	Description	Status	Assignee
SCRUM-7	i want to add new client by entering their names, email, phone number and business types.	TO DO	[User Icon]
SCRUM-8	i want to schedule a meeting by selecting a client, setting a date and time, and specifying the purpose of meeting.	TO DO	[User Icon]
SCRUM-9	i want to receive email reminder about scheduled meetings	TO DO	[User Icon]
SCRUM-10	i want to see a calendar view that displays all scheduled meetings	TO DO	[User Icon]
SCRUM-15	i want to update the status of the task	TO DO	[User Icon]
SCRUM-16	i want to update the task as complete and provide notes on completion.	TO DO	[User Icon]
SCRUM-17	i want to receive notification when the task are marked as complete or if any issue arises during task execution	TO DO	[User Icon]
SCRUM-18	i want to generate a report on percentage completion of each projects.	TO DO	[User Icon]
SCRUM-19	i want to export files in every format for sharing and analysis	TO DO	[User Icon]
